Squarespace, Custom CSS/JS

- A modern, responsive landing page for a UGC marketing company built as a cross-platform web experience

<https://fesiko.co/>

WORK EXPERIENCE

intellibots.io

February 2026 – Present

AI Software Developer (Freelance Remote) - United States

- Building AdCommand, an all-in-one AI-powered SaaS platform for ad content generation targeting businesses and individuals
- Developing features for AI-driven ad creative generation including images, videos, copy, and competitive spy tools for low-ticket offers
- Architecting a full-stack web application with Claude Code and Cursor to streamline the entire ad production workflow

WayBackTours

August 2025 – Present

AI Software Engineer (Freelance Remote) - Cincinnati, Illinois, United States

- Developing a full-stack tourism app featuring interactive maps, points of interest, curated stories, and real-time flight tracking
- Implementing offline-first architecture to ensure seamless content access for travelers without connectivity
- Managing and developing the company website alongside the mobile application as a full-stack developer

MindFortress

September 2025 – March 2026

AI Software Developer (Fulltime Remote) - Truckee, California, United States

- Developed MeetFreya, an AI-powered writing partner for content creation, editing, and refinement with intelligent assistance
- Built and maintained the MindFortress platform, delivering AI-driven applications that empower users with intelligent tools
- Leveraged Claude Code and Claude Skills to accelerate development and ship production-ready software products

Wijs Rijbewijs

November 2025 – January 2026

Mobile Application Developer (Freelance Remote) - Bergen, North Holland, Netherlands

- Developed a mobile application for a Dutch driving school platform to help students prepare for and obtain their driver's license
- Built user-facing features for lesson scheduling, progress tracking, and exam preparation using Cursor and modern development tools

LeadsFlow180

May 2025 – August 2025

AI Software Engineer (Part-time Remote) - Boston, Massachusetts, United States

- Created web app for business use from scratch with Vibe Coding in Cursor
- Planned, developed, tested and deployed full web application end-to-end
- Maintained and iterated on the web app based on client feedback

Giftstoengrave

June 2024 – June 2025

Jr. Fullstack Javascript Developer (Fulltime Remote) - New Jersey, United States

- Developed automated workflows using tangle.io to streamline business processes for ERP
- Built robust server-side applications with Node.js, and front-end interfaces using Vue.js
- Designed and integrated drop shipping functionality for Etsy and Amazon marketplaces

Fesiko Marketing

July 2024 – January 2025

Squarespace Developer (Freelance Remote) - Pafos, Paphos, Cyprus

- Developed fesiko.co, designing a modern, responsive UI for a UGC marketing company
- Optimized layout and customized UI with custom CSS/JS

Brisklabs.DEV

February 2024 – May 2024

Full-Stack Developer (Internship) - Singapore

- Developed www.gstandings.com, designing a modern, responsive UI
- Optimized UI rendering using React hooks, reducing re-renders
- Integrated Supabase API for CRUD functionality with authentication

EDUCATION

Aklan State University

2020 – 2024

Bachelor of Science in Information Technology

- Grade 1.53 (Cum Laude)
- Best Programmer
- Best in Capstone Research
- Finalist — 3rd Western Visayas Industry, Energy and Emerging Technology Research Conference 2023

CERTIFICATES

- Anthropic Education — Claude Code in Action
- Introduction to Agent Skills (Anthropic Education)
- Introduction to Model Context Protocol (Anthropic Education)
- Model Context Protocol: Advanced Topics (Anthropic Education)
- Claude 101 (Anthropic Education)
